The thirteenth in a series of technical meetings concerning Docket 01-05-18 was held January 7, 2003, by conference call beginning at 11:00 a.m.

Participants:

Peter Pescosolido, DPUC  
Karen Mulberry, WorldCom

Cassie Yang, SBC SNET  
Brent Struthers, NeuStar  
Norman Epstein, Verizon  
Shannon Collins, NeuStar

Robert H. Mundy, DPUC  
Rich Skarzynski, SBC SNET  
Ed Miller, SBC SNET  
Paul LaGattuta, AT&T

Dara Sodano, NeuStar

The meeting began with an update as to the number of carriers participating in the trial. As of this date, no carrier is participating in the trial nor has a service provider requested a password from NeuStar to access its Modified-UNP Trial Web Site.

The group has agreed to continue with the trial with the expectation that some carriers will participate. It was also agreed that in the event that no carrier is participating in the trial by the time of the next meeting (March 4, 2003), that a "pseudo-trial" involving industry participants to this proceeding be undertaken as a means of evaluating the Modified-UNP Industry Guidelines and NeuStar's number pooling procedures.

The next meeting has been scheduled for March 4, 2003, at 11:00 a.m. EST.

The Conference Call Meeting adjourned at approximately 11:10 a.m.
