

**Minutes of Conference Call
Connecticut Modified-UNP Trial
March 4, 2003**

Re: Docket No. 01-05-18, DPUC Intent to Conduct a Voluntary Unassigned Number Porting (UNP) Trial

The fourteenth in a series of technical meetings concerning Docket 01-05-18 was held March 4, 2003, by conference call beginning at 9:00 a.m.

Participants:

Peter Pescosolido, DPUC
Robert Howley, Cox Communications
Ed Miller, SBC SNET
Paul LaGattuta, AT&T
Eileen Huggard, Verizon

Robert H. Mundy, DPUC
Pat Gendernalik, SBC SNET
Cassie Yang, SBC SNET
Shannon Collins, NeuStar

The meeting began with an update as to the number of tens-blocks assigned. As of this date, no tens-block has been requested for use in the trial.

The group had agreed at the January 7, 2003, meeting to continue with the trial with the expectation that some carriers would participate. It was also agreed that in the event no carrier was participating in the trial by the time of the next meeting (March 4, 2003), that a "pseudo-trial" involving industry participants to this proceeding be undertaken as a means of evaluating the Modified-UNP Industry Guidelines and NeuStar's number pooling procedures. Given the small number of participants in this conference call meeting, the decision as to how to proceed with the trial or "pseudo-trial" was postponed by consensus to the next meeting.

The next meeting has been scheduled for March 25, 2003, at 11:00 a.m. EST.¹

The Conference Call Meeting adjourned at approximately 9:12 a.m.

¹ The Phone-In Number for Tuesday, March 25, 2003, is 877-601-3547. The Passcode is UNP. The Call Leader for that call will be Peter Pescosolido
